**Subject:** RE: Rad Air Sample Locations

All so far for us (6), Michael Ortiz (Rad Protection Bureau, NMDEM 505-699-0060) has all the location; about 15 but not final. It is our priority for situation reporting to clarify and get the locations mapped.

From: Ortiz, Michael, NMENV

Sent: June 28, 2011

The attached is the information for each rad air sample location, with contact information, and map with direction. NMED/RCB staff has obtained approval from each locations. Greg Fife EPA can contact me at 505-699-0060 prior to deploying to each location, that way I will make sure someone at each location will allow us to enter their property. The only exception is Embudo Valley Environmental Monitoring Group in Dixon NM, Steve Yanicak, NMED 690-9179 or 661-2644 will need to be contacted for the actual location.

Please let me know if additional information is required.

Michael Ortiz, Chief  
Radiation Control Bureau  
NMED/EPD
